

I bought a Motorola T5720, FRS/GMRS radio and discovered I need to apply for an FCC license. But I have spent over an hour trying to figure out how to fill out form 605, since it only talks about GMRS for non-individuals, but not for me - an individual. I still cannot figure out what it costs. And form 605 asks if I'm exempt from FCC app/reg fees, but how would I know? In the HELP it says to "See the instructions for FCC Remittance Advice, FCC Form 159", which fortunately is online. I search for "exempt" and it comes up empty!? I scan thru this doc, and I've no idea why they pointed me at it.

I did obtain a CORES FRN, but am at a loss on how to proceed.

HELP!
